Engaged in manufacturing and exporting of superlative silica based minerals and refractory products.

About Us

VIKRAM MINERALS, a professionally managed organization is engaged in the manufacturing and exporting of superlative Silica based Minerals and refractory products. Backed by resourceful mine of silica base non-metallic minerals, we have been successfully offering Fine China Clay, Potassium Feldspars, Silica Ramming Mass and Natural Quartz Stones. Combining more than 25 years of experience with advanced processing practices, we offer an unmatched solution to the Quartz engineered stone, Steel, ceramics, glass, chemical, fireproof board (non asbestos), insulator and paint industries. Adhering to strict quality norms, we process minerals as per the national and international quality standards. Free from any kind of contamination, our minerals are 100 % pure. VIKRAM MINERALS was established in the year 1985, under the guidance of **Mr. Sampat Singh Ji Dangi**, the CEO of the organization. Due to his industrious efforts, we have achieved expertise in the domain of minerals.
