A collection of modern fiberglass outdoor/indoor furniture, based on australian technology will give a contemporary look to your home as well as your office.

About Us

Bringing a transformation in Indian urban living has never been an easy task. Because, it is quite difficult to change the look of your home with every change in the fashion. You can break the monotony of sticking to just one art form by introducing a flawless fusion of ageless traditional themes and ultra modern styles in furniture and furnishing. Virasat has successfully pioneered the concept of fusion between ethnic and modern lifestyle. We specialize in royal furniture from different parts of India, Our collection includes carved and decorative wooden furniture, paintings, frames, trolleys, cabinets, bars, doors, and windows and many other items having ethnic look to give that ageless charm to your home. A collection of modern fiberglass outdoor/indoor furniture, based on Australian technology will give a contemporary look to your home as well as your office. We also offer unique gift items in brass, silver and woodcarvings, lampshades, statutes and paintings bearing modern art to add elegance in your living.
