About Us

VSS is young and vibrant organization combining professional zeal and domain expertise to address a wide array of industry specific IT based project, business consulting and service requirements. One of the key areas of specialization is developing and implementing Enterprise Solutions for manufacturing Industry.

Vishleshan has been founded to provide high-end technology solutions based on latest technologies to leading corporate houses. We combine fundamental algorithmic research activity with practical applications in programming, customized IT systems design, software development & consulting and Software Testing. Our corporate headquarter is located in Mumbai, India

We strive to become a world-class technology solution provider by building lasting relationship with our clients. Our objectives are to attain customer satisfaction through quality product & service with ethical work practices.

The key components of the environment are our People and Culture. We hire developers that are trained to think about building products as opposed to implementing IT projects. We maintain an environment that is highly conducive to application development with ownership and responsibility. VSS's innovative approach to offshore software development and outsourcing increases its Customer's competitive advantage and helps them to overcome their budget and resource challenges. Special emphasis is given on after sales service. It is because of this endeavor to keep...
