## About Us

VMC is an OEM [Original Equipment Manufacturer] of Telecommunication & Networking equipment and Power-Conversion products. With a combination of value-add R&D and uncompromising Manufacturing capabilities, we offer our customers a comprehensive portfolio of products, a true "one-stop-shop" for their networking and power-supplies requirements. We offer not just products based on industry-standards, but also provide customized solutions to give our customers the competitive edge.

VMC's strong focus on quality and operational excellence has enabled us to meet the stringent quality and reliability specifications of large PSU and MNCs as well as cater to large-volume requirements of consumer-electronics giants. With an R&D philosophy of value-add engineering, we strive to offer the best features at an economical cost, aimed at improving our customer's TCO [Total Cost of Ownership] of any VMC product.

With the dawn of the new decade, and almost 2 million units later, VMC remains focused on its vision to be India's largest OEM of high-quality Telecommunications, Networking and Power-conversion products.
