V. P. Computers

https://www.indiamart.com/vp-computers/

Providing all tyes of it and computer solution.

About Us

In July of 1996, a company began to form in the balcony of a home, where a fresh college graduate was running the show alone. At the time, the Computers were still foreign to many companies because of the high prices for Hardware and Software and Unreliable Service. Thus, the concept was simple-affordable PCs with quality After Sales Service. Consequently, V. P. Computers was formed to fulfill the customer requirements.

V. P. Computers began to provide new computer systems, upgrades to old computers, and technical support to area businesses.

With all the computerization of various functions in day to day businesses there was a need of computer networking in order to share the resources like files, printers, internet connection etc. V. P. Computers started providing networking solutions to all the clients.

On August 12, 2000, V. P. Computers moved to a new office premises at Neighborhood Shopping Complex, Nerul. The new office invited in the general public along with more businesses for computer services: new systems, upgrades, repairs, and other technical support. From that point, V. P. Computers became very active in the local area, to help the local communities grow and prosper with all their technical needs.

Internet started becoming popular and so was the cybercafes. Our team with their expertise in the field of Networking and Internet helped many such cybercafes for set-ups and maintenance.

V. P. Computers...
