## About Us

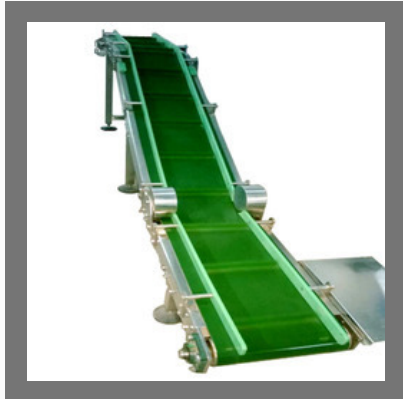

We have great pleasure introduction ourselves as one of the specialized manufactures of Inplant Material Handling System and Custom Built Equipments. **VSK Automations** started business in the year **2001** as a sole proprietorship based company. We are the leading **manufacturer, supplier and trader of Hydraulic Equipment, Storage System, Conveyor System, Belt Conveyor** and many more products. Our products are known for their quality and we provide branded products to clients at reasonable rate. We trade products of BAKA and Hafi. Further, the products offered by us are manufactured using high grade material that we procured from the reliable vendors of the market. We are connected with the certified and authenticated vendors of the market who help us in serving clients. Our products are known for their various uses in suitable applications, durability, high tensile strength and accurate dimension. By offering quality products to clients, we have attained a huge clientele in the market and as well as a reputed position. Today, our company is doing well in the market and growing day by day. We have a team of professionals who work hard with dedication and passion to meet the huge market demands in limited time frame. Moreover, our professionals are capable to cater the diverse demands of the clients in all manners and satisfy them. The transparency in our business and prompt reply of the queries to customers make us their first choice. ...
