About Us

Webtechex was established in 2013 with the team of highly experienced software professionals to build best and most innovative IT solutions under one roof. Our expertise is in building a wide array of software products from gadgets, applications, website to custom IT solutions. We have successfully built several domestic and international projects in a very short span of time. We are committed to offer cutting edge products by rewarding our clients' requirements. We have built several software solutions ranging from custom software development, ecommerce portals, eLearning and web portals, mobile apps, internet marketing consultations, QA assistance, intranet & extranet portals and much more.

Our clean and economical approach to develop software, applications and QA processes start with perfect resources. Our extensive track record is equipped with rapid, cost-effective and robust IT solutions that combine seamlessly with the strategies, technologies, analysis, architecture, designs and QA. We offer analytics, ongoing search and development, knowledge management, multimedia training, mobile and web solutions to a broad client base from dynamic startups to Fortune 500 companies.
