Western Chemical Industries Private Limited

<https://www.indiamart.com/western-chemicalindustries/>

Manufacturer of organic intermediates, sulfone derivatives, pigment violet etc.

About Us

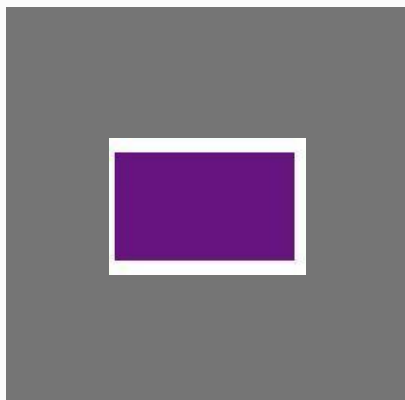

Western Chemical Industries (P) Limited was founded in 1995 with a vision to fulfil the growing demand for Organic High Performance Pigments in the global market. Based in the financial capital of India - Bombay (Mumbai), Maharashtra, we have over two decades of strong presence in the pigment industry. An ISO recognized organization, we are a manufacturing company incorporated since 1995, for High Performance Organic Pigments, Intermediates and Carbazole Violet-23. Since our establishment we have grown our capacity and advanced technologies through in-house QC labs and R&D center.
