Wonder Systems India Pvt. Ltd. was established in the year 1996. We are wholesale trader, importer and exporter of DC Drives, Parker DC Drives, etc. We are also Service Provider of Installation & Consultancy Service.

About Us

Wonder Systems India Pvt. Ltd. was established in the year 1996. We are wholesale trader, importer and exporter of Rolling Mills, DC Drives, Parker DC Drives, Hot Metal Detector, etc. We are also Service Provider of Installation & Consultancy Service. There exists a well-trained team of engineers who handle the most complex drive requirements completely. All drafting needs are addressed through computers. Our company, being system integrator for SSD Drives division of Parker Hannifin Corporation, UK and Italy offers complete Engineering and cost effective solutions, covering design concepts, assembly, supply, commissioning and field services for various industrial applications.

Our company guarantees high-quality personalized service with considerable technical and professional expertise makes us a reliable, flexible partner who is capable of providing specialized support. We offer a full range of skills to help you select your ideal product and process solutions, no matter where you are. Our top quality services stem from our philosophy of putting the needs and preferences of our customers first. Our products are the result of a complete synergy between our internal resources and the automation and industrial control market. This synergy has developed over the years thanks to the strong relationships. We build with our users in order to better understand specific industry needs. We look forward to receiving your feedback in order that we may be...
