## About Us

25 years is a long time to stabilize in a creative profession whose landscape has morphed dramatically-from paper to digital platform. It has been a long winding and exciting journey full of successful trails, learning and making mistakes. We have witnessed history in the making and also been a part of the growing tribe gathering experience on the highway. Writing has such a vast scope that as professionals we have been able to diversify into several genres of writing. It has helped us to adopt and adapt to many styles to suit diverse purposes. We have done brochures, Audio scripts, and ghost written books for authors who are now published and happy. Recently we have added translation services to our growing list of writing techniques. No matter who needs our services we have been able to provide quality content within deadlines for any time zone in the world. In some cases we have beaten the deadlines too! I am no longer a lone wolf... there are others who make Wordsmithatwork a well-oiled company whose trajectory is still developing... reaching new frontiers. Join us, hop on the bandwagon and be a part of our family as a writer, client, friend, or consultant. I shall be happy to embrace you.
