World class Business Apps to manage your processes

With workXmate, you get complete insight into any process on finger tips, no matter where you are. You also get access to best practices followed by industry leaders.

workXmate

About Us

WorkXmate Business Apps help you effortlessly manage your Business Processes. Unlike excel & point solutions, workXmate provides centralized data that can be accessed from any other process.

With workXmate, you get complete insight into any process on finger tips, no matter where you are. In addition, you get access to management processes and best practices typically followed by industry leaders.

The Apps greatly reduce the effort required by the management team in doing administrative & repetitive tasks. Their revolutionary design enables them to be easily Configured “without programming”.

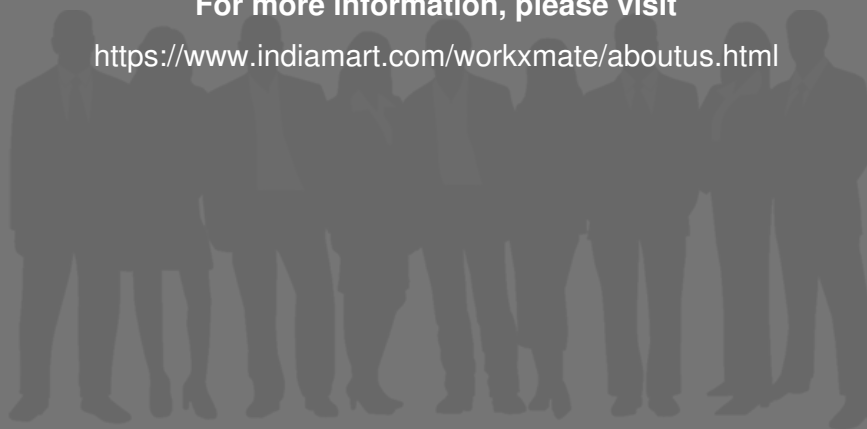

WorkXmate is deployed on the Cloud – for a fraction of the cost of traditional systems.

Some of the popular Apps are:

- Sales CRM
- Customer Support CRM
- Order Management
- Sales & Service Team Management
- Inventory
- Tally Integration
