

Yantra Platform

<https://www.indiamart.com/yantra-platform/>

Founded in 2011, YantraNet enables organizations to connect, monitor and manage networked devices and applications and implement highly interactive and innovative Self-Service, Digital Signage and M2M solutions.

About Us

YantraNet offers YantraPlatform, a highly scalable, secure and flexible enterprise and cloud based remote device management platform to control, monitor and manage connected devices and YantraFramework, the world's first cross-platform web browser framework designed specifically to build highly interactive Self-Service and Digital Signage applications using HTML5, CSS and JavaScript.
