## About Us

Yarrow Chem Products was established in the year 2006. We are the retailer, trader, supplier of active pharmaceutical ingredients. We provide these in samples for the institutions, research purpose. We do not provide these products in bulk. Using top-grade components at our vendors end, these presented products are developed in precision with the set guidelines of quality. Additionally, this variety is well tested on a number of standards before final dispatch of the order.

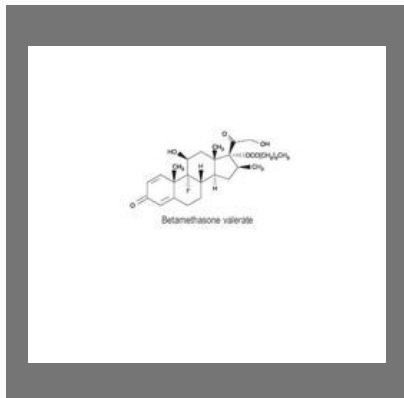

We offer a wide range of active pharmaceutical ingredients, which are used as raw materials in the manufacturing process of various drugs and chemicals. We can offer these products by controlling their physicochemical attributes including Particle size distributions, free flowing nature, unpleasant smell/taste masking. We are specialists in supply of genuine quality of Active Pharmaceutical Ingredients (APIs), Polymers and rare research chemicals useful for B.Pharm., M.Pharm., Ph.D. and Post-Doctoral studies in pharmacy universities and colleges across the country. The company is backed by technical experts, Doctorates and strives for excellence in maintaining high standards of quality. Constant efforts for innovation are made through research and development activity for increasing our product range with an affordable pricing policy.
