About Us

Zamil Air Conditioners India Private Limited (ZAC India), a 100% owned company of Zamil Industrial Investment Company, Saudi Arabia (ZIIC) began its full-fledged foray in Indian air conditioner industry by investing 30% stake in Advantech Coils Private Limited in 2008. In order to further consolidate its presence in India ZIIC has entered into binding agreement with the joint venture partner for complete buy-out. This acquisition marks the first major foreign direct investment by a GCC air-conditioning company in India, and signifies the commitment of Zamil towards high potential Indian consumer and commercial air conditioning market through its differentiated HVAC Solutions to different market segments.

ZAC India has its head office in New Delhi and has committed to establishing a pan India presence. It (ZAC India) has two fully integrated state of art manufacturing facilities (with combined installed production capacity of 1.2 million units per annum) - in Nalagarh (in the state of Himachal Pradesh). The facilities include multiple assembly lines, sheet metal Fabrication Shop, plastic Injection Molding, coil shop, paint shop and state of the art multi-channel (MCHX) parallel flow condenser manufacturing unit supported by helium leak detectors. ZAC India also has a state of the Art design & testing laboratory manned by competent engineering staff.

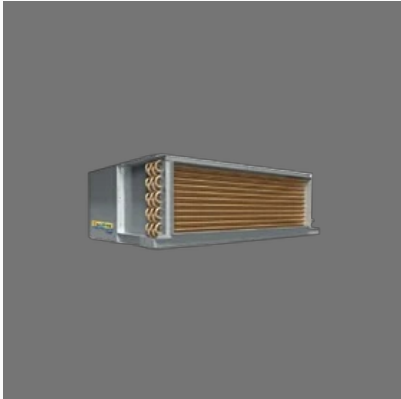

The product range of ZAC India currently comprises of residential and commercial air conditioners (it also...
